

FREE LAB WORK

Blood Work

When your doctor orders outpatient laboratory work for you and your eligible dependents on your medical plan, present your LabCard and tell them that you would like to use this benefit.

Your doctor's office collects the specimens and calls the testing facility for pickup.

The testing facility performs the tests and sends the results to your doctor.

Your covered testing under this program is **FREE**.

Lab work includes:

- Blood testing
- Urine testing
- Cytology and pathology (e.g., pap smears)
- Routine throat cultures
