Members of the Board:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of LA JOYA INDEPENDENT SCHOOL DISTRICT (the District) as of and for the year ended August 31, 2008, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's administrators. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of LA JOYA INDEPENDENT SCHOOL DISTRICT as of August 31, 2008, and the respective changes in financial position and cash flows, where applicable, thereof, and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Management's discussion and analysis and other RSI such as budgetary comparison information on pages 4 through 9 and 67 through 68 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 29, 2008, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over

financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise LA JOYA INDEPENDENT SCHOOL DISTRICT's basic financial statements.

The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements, and in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Although the combining fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements, they have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The Texas Education Agency requires school districts to include certain information in the Annual Financial and Compliance Report in conformity with laws and regulations of the State of Texas. This information is in Exhibits identified in the Table of Contents as J-1 through J-5. Except for Exhibit J-3 (Cash Flow and the Optimum Fund Balance Calculation Schedule) which is marked **UNAUDITED** and on which we express no opinion, these schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Management's Discussion and Analysis

LA JOYA INDEPENDENT SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the La Joya Independent School District's Annual financial and compliance Report, we, the managers of LA JOYA ISD, discuss and analyze the District's financial performance for the fiscal year ended August 31, 2008. Please read it in conjunction with the independent auditors' report on page 2, and the District's Basic Financial Statements which begin on page 10.

FINANCIAL HIGHLIGHTS

- The District's net assets increased by \$9 million as a result of this year's operations.
- During the year, the District had expenses that were \$58.2 million more than the \$256.8 million generated in tax and other revenues for governmental programs. This compares to last year when expenses were \$27.1 million more than the \$247.1 million in revenues.
- Total cost of all of the District's programs increased by \$40.7 million.
- The General Fund ended the year with a fund balance of \$71.4 million.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Assets and the Statement of Activities on pages 10 and 11. These provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements (starting on page 12) report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. For proprietary activities, fund financial statements tell how goods or services of the District were sold to departments within the District or to external customers and how the sales revenues covered the expenses of the goods or services. The remaining statements, fiduciary statements, provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the district.

The notes to the financial statements (starting on page 23) provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The combining statements for non major funds contain even more information about the District's individual funds. These are not required by TEA. The sections labeled TEA Required Schedules and Federal Awards Section contain data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

Reporting the District as a Whole

The Statement of Net Assets and the Statement of Activities

The analysis of the District's overall financial condition and operations begins on page 10. Its primary purpose is to show whether the District is better off or worse off as a result of the year's activities. The Statement of Net Assets includes all the District's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as tuition received from students from outside the district and grants provided by the U.S. Department of Education to assist children with disabilities of from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the District's net assets and changes in them. The District's net assets (the difference between assets and liabilities) provide one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's net assets are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, you should consider nonfinancial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

In the Statement of Net Assets and the Statement of Activities, the district reports on kind of activity:

- Governmental activities—Most of the District's basic services are reported here, including the instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these activities.

Reporting the District's Most Significant Funds

Fund Financial Statements

The fund financial statements begin on page 12 and provide detailed information about the most significant funds—not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received under the No Child Left Behind Act from the U.S. Department of Education. The District's administration establishes many other funds to help it

control and manage money for particular purposes (like campus activities). The District's two kinds of funds, governmental and proprietary, use different accounting approaches.

· Governmental funds—Most of the District's basic services are reported in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

· Proprietary funds—The District reports the activities for which it charges users (whether outside customers or other units of the District) in proprietary funds using the same accounting methods employed in the Statement of Net Assets and the Statement of Activities. In fact, the District's enterprise funds (one category of proprietary funds) are the business-type activities reported in the government-wide statements but containing more detail and additional information, such as cash flows. The internal service funds (the other category of proprietary funds) report activities that provide supplies and services for the District's other programs and activities—such as the District's self-insurance programs and the print shop.

The District as Trustee

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for monies raised by third parties. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Assets on pages 22. We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Our analysis focuses on the net assets (Table I) and changes in net assets (Table II) of the District's governmental and business-type activities.

Net assets of the District's governmental activities increased from \$204,014,769 to \$213,270,657. Unrestricted net assets – the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – were \$68,112,784 at August 31, 2008.

In 2008, net assets of our government-type activities increased by \$9,255,888, about 4.54 percent.

The cost of all governmental activities this year was \$249.64 million compared to \$228.83 million last year. However, as shown in the Statement of Activities on pages 11, the amount that our taxpayers ultimately financed for these activities through District taxes was only \$23.2 million because some of the costs were paid by those who directly benefited from the programs or by other governments and organizations that subsidized certain programs with grants and contributions or by State equalization funding.

THE DISTRICT'S FUNDS

As the District completed the year, its governmental funds as presented in the balance sheet on page 12 reported a combined fund balance of \$146.4 million, which is a decrease from last year's total of \$202 million. Included in this year's total change in fund balance is an increase of \$1.2 million in the District's General Fund and a decrease of \$57.9 million in the District's Construction Fund.

Capital expenditures reduce available fund balance, they create new assets for the District as reported in the Statement of Net Assets and as discussed in Note F to the financial statements.

Over the course of the year, the Board of Trustees revised the District's budget several times. These budget amendments fall into three categories. The first category involves amendments to move funds from functions that did not need all the resources originally appropriated to them to other functions where resources were needed. The second category involves budgeting for additional local, state, or federal revenues. The third category involves budgeting additional expenditures funded by the District's general fund balance.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of 2008 the District had \$358.6 million invested in a broad range of capital assets, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance. This amount represents a net increase of just over \$64.65 million, or 22 percent above last year.

Debt Administration

At year-end, the District had \$249.1 million in bonds, notes, accreted interest and capital leases outstanding versus \$254.9 million last year—a decrease of 2.3 percent. The District's general obligation bond rating has been the highest possible according to national rating agencies.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- Appraised value used for the 2009 fiscal year increased \$107 million from \$2.107 billion to \$2.214 billion.
- The district's refined average daily attendance for 2008-2009 is expected to be 24,513 up from 23,713 for fiscal year 2007-2008.

These indicators were taken into account when adopting the General Fund budget for 2009. Amounts available for appropriation in the General Fund budget are \$206 million, an increase of 3.6 percent over the 2008 amounts available for appropriation of \$198.9 million. The District will use its revenues to finance programs currently being offered as well as several construction and remodeling projects throughout the district. Total governmental budgeted expenditures are expected to rise nearly 8.7 percent to \$281.9 million in 2008-2009 from the 2007-2008 original budgeted of \$259.3 million

If these estimates are realized, the District's budgetary General Fund balance is expected to decrease by \$21 million by the close of 2009.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's business office, at La Joya Independent School District, 201 E. LA JOYA INDEPENDENT SCHOOL DISTRICT
 RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
 STATEMENT OF NET ASSETS
 AUGUST 31, 2008

Total Fund Balances - Governmental Funds	\$	146,417,374
1 The District uses internal service funds to charge the costs of certain activities, such as self-insurance and printing, to appropriate functions in other funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets. The net effect of this consolidation is to increase(decrease) net assets.		31,283,330
2 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$222,175,681 and the accumulated depreciation was \$257,593,794. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase (decrease) net assets.		(35,418,113)
3 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2008 capital outlays and debt principal payments is to increase (decrease) net assets.		71,702,117
4 The 2008 depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net assets.		(8,261,730)
5 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing deferred revenue as revenue, eliminating interfund transactions, reclassifying the proceeds of bond sales as an increase in bonds payable, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase (decrease) net assets.		7,547,679

 RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES,
 AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
 FOR THE YEAR ENDED AUGUST 31, 2008

Total Net Change in Fund Balances - Governmental Funds	\$	(55,899,159)
The District uses internal service funds to charge the costs of certain activities, such as self-insurance and printing, to appropriate functions in other funds. The net income (loss) of internal service funds are reported with governmental activities. The net effect of this consolidation is to increase (decrease) net assets.		2,513,273
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of removing the 2008 capital outlays and debt principal payments is to increase (decrease) net assets.		71,702,117
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net assets.		(8,261,730)
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing deferred revenue as revenue, adjusting current year revenue to show the revenue earned from the current year's tax levy, eliminating interfund transactions, reclassifying the proceeds of bond sales, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase (decrease) net assets.		(1,043,685)

LA JOYA ISD

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED AUGUST 31, 2008

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

LA JOYA INDEPENDENT SCHOOL DISTRICT (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board and other authoritative sources identified in *Statement on Auditing Standards No. 69* of the American Institute of Certified Public Accountants; and it complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

A. REPORTING ENTITY

The Board of Trustees (the "Board") is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity." There are no component units included within the reporting entity.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Assets and the Statement of Activities are government-wide financial statements. They report information on all of the LA JOYA INDEPENDENT SHCOOL DISTRICT non-fiduciary activities with most of the inter-fund activities removed. *Governmental activities* include programs supported primarily by taxes, State foundation funds, grants and other intergovernmental revenues. *Business-type activities* include operations that rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If revenue is not program revenue, it is general revenue used to support all of the District's functions. Taxes are always general revenues.

Inter-fund activities between governmental funds and between governmental funds and proprietary funds appear as due to/due from on the Governmental Fund Balance Sheet and Proprietary Fund Statement of Net Assets and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balance and on the Proprietary Fund Statement of Revenues, Expenses and Changes in Fund Net Assets. All inter-fund transactions between governmental funds and between governmental funds and internal service funds are eliminated on the government-wide statements. Inter-fund activities between governmental funds and fiduciary funds remain as due to/due from on the government-wide Statement of Activities.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories - governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operations in a separate column.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues result from providing goods and services in connection with a proprietary fund's principal ongoing operations; they usually come from exchange or exchange-like transactions. All other revenues are non-operating. Operating expenses can be tied specifically to the production of the goods and services, such as materials and labor and direct overhead. Other expenses are non-operating.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for un-matured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the "susceptible to accrual" concept, that is, when they are both measurable and available. The District considers them "available" if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors some times require the District to refund all or part of the unused amount.

The Proprietary Fund Types and Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. The District applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless these pronouncements conflict or contradict GASB pronouncements. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Assets. The fund equity is segregated into invested in capital assets net of related debt, restricted net assets, and unrestricted net assets.

D. FUND ACCOUNTING

The District reports the following major governmental funds:

1. **The General Fund** – The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
2. **Capital Projects Funds** – The proceeds from long-term debt financing revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund.

Additionally, the District reports the following fund type(s):

Governmental Funds:

1. **Special Revenue Funds** – The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund and sometimes unused balances must be returned to the grantor at the close of specified project periods.
2. **Debt Service Funds** – The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.
3. **Internal Service Funds** – Revenues and expenses related to services provided to organizations inside the District on a cost reimbursement basis are accounted for in an internal service fund. The District's Internal Service Funds are:

Print Shop (Fund 752)
Health Insurance (Fund 753)
Worker's Compensation (Fund 770)
Unemployment Insurance (Fund 780)

10. **Agency Funds** – The District accounts for resources held for others in a custodial capacity in agency funds. The District's Agency Funds are:

Tax Collections Clearing (Fund 861)
Student Activity Accounts (Fund 865)
Merit Scholarship (Fund 876)
Employee Memorial (Fund 877)
Superintendent's Scholarship (Fund 878)

E. OTHER ACCOUNTING POLICIES

1. For purposes of the statement of cash flows for proprietary funds, the District considers highly liquid investments to be cash equivalents if they have a maturity of three months or less when purchased.
2. The District reports inventories of supplies at weighted average cost including consumable maintenance, instructional, office, athletic, and transportation items. Supplies are recorded as expenditures when they are consumed. Inventories of food commodities are recorded at market values supplied by the Texas Department of Human Services. Although commodities are received at no cost, their fair market value is supplied by the Texas Department of Human Services and recorded as inventory and deferred revenue when received. When requisitioned, inventory and deferred revenue are relieved, expenditures are charged, and revenue is recognized for an equal amount.

3. In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

4. It is the District's policy to permit some employees to accumulate earned but unused and sick pay benefits. As of August 31, 2008, the accumulated sick leave balance is \$18,262,651.
5. Capital assets, which include land, buildings, furniture and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, furniture and equipment of the District are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Building Improvements	40
Portable Buildings	20
Vehicles	7
School Buses	10
Other Equipment	5

6. Since Internal Service Funds support the operations of governmental funds, they are consolidated with the governmental funds in the government-wide financial statements. The expenditures of governmental funds that create the revenues of internal service funds are eliminated to avoid "grossing up" the revenues and expenses of the District as a whole.
7. Self Insurance Plans

Workers' Compensation - Self Funded

During the year ended August 31, 2008, La Joya ISD met its statutory worker's compensation obligations. The District has established a self insurance program for worker's compensation benefits. As a self-funded entity, La Joya ISD is solely responsible for all claim costs, both reported and unreported.

Claims are paid by a third party administrator acting on behalf of the District under the terms of a contractual agreement. Administrative fees are included within the provisions of the agreement. According to state statute, the District is protected against unanticipated catastrophic claims and aggregate loss by coverage through Midwest Employers Casualty Company, a commercial insurer

licensed or eligible to do business in Texas in accordance with the Texas Insurance Code. Claims Administrative Services, Inc. from Tyler, Texas provides administrative services including claims administration and customer service.

La Joya ISD is protected against higher than expected claim costs through the purchase of stop loss coverage. Coverage was in effect for specific occurrences exceeding \$ 1,000,000 and aggregate retention at \$ 2,000,000 .

The costs associated with these self insurance plans are reported as interfund transactions to the extent of amounts actuarially determined. Accordingly, they are treated as operating revenues of the Internal Service Fund and operating expenditures of the General Fund and the Special Revenue Funds.

Unemployment Compensation - Self Funded

During the year ended August 31, 2008, the La Joya Independent School District met its statutory unemployment compensation obligations by participating as a self funded member of the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Inter-local Cooperation Act, Chapter 791 of the Texas Government Code and Chapter 504, Texas Labor Code. All members participating in the Fund execute Inter-local Agreements that define the responsibilities of the parties.

The Fund's audited financial statements as of August 31, 2007, are available at the TASB offices and have been filed with the Texas State Board of Insurance in Austin, Texas.

8. In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.
9. When the District incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first whenever they will have to be returned if they are not used.
10. The Data Control Codes refer to the account code structure prescribed by TEA in the *Financial Accountability System Resource Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a State wide data base for policy development and funding plans.
11. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.
12. The Federal Tax Reform Act of 1986 requires issuers of tax-exempt debt to make payments to the United States Treasury for investment income received at yields that exceed the issuer's tax exempt borrowing rates. The Treasury requires payment for each issue every five years. The estimated liability is updated annually for all tax-exempt issuances or changes in yields until such time payment of the calculated liability is due. The district had a liability of \$1,094,990 as of August 31, 2008.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND BALANCE SHEET AND THE GOVERNMENT-WIDE STATEMENT OF NET ASSETS

Exhibit C-2 provides the reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the net assets for governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that capital assets are not financial resources and are therefore not reported in governmental funds. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period and are not reported as liabilities in the funds. The details of capital assets and long-term debt at the beginning of the year were as follows:

<u>Capital Assets</u> <u>the Beginning of the year</u>	<u>Historic Cost</u>	<u>Accumulated</u> <u>Depreciation</u>	<u>Net Value at the</u> <u>Beginning of the</u> <u>Year</u>	<u>Change in Net</u> <u>Assets</u>
Land	\$10,311,966		\$10,311,966	
Buildings and Improvements	223,237,072	55,734,392	167,502,680

Vehicles	14,751,732	9,348,411	5,403,321	
Construction in Progress	<u>36,862,923</u>	<u>0</u>	<u>36,862,923</u>	
Change in Net Assets				<u>\$222,175,681</u>
 <u>Long-term Liabilities</u> <u>at the Beginning of the year</u>			 <u>Payable at the</u> <u>Beginning of the</u> <u>Year</u>	
Bonds Payable			254,484,587	
Loans Payable			484,005	
Other – Premium/Accrued Interest			<u>2,625,202</u>	
Change in Net Assets				<u>(257,593,794)</u>
Net Adjustment to Net Assets				<u>(\$35,418,113)</u>

B. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES AND THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

Exhibit C-4 provides a re-conciliation between the net changes in fund balance as shown on the governmental fund statement of revenues, expenditures, and changes in fund balances and the changes in net assets of governmental activities as reported on the government-wide statement of activities. One element of that reconciliation explains that current year capital outlays and debt principal payments are expenditures in the fund financial statements, but should be shown as increases in capital assets and decreases in long-term debt in the government-wide statements. This adjustment affects both the net asset balance and the change in net assets. The details of this adjustment are as follows:

	<u>Amount</u>	<u>Adjustments to</u> <u>Changes in Net</u> <u>Assets</u>	<u>Adjustments to</u> <u>Net Assets</u>
<u>Current Year Capital Outlay</u>			
Land	703,096		
Buildings & Improvements	37,178,419		
Furniture & Equipment	607,235		
Vehicles	1,053,235		
Construction in Progress	<u>25,720,287</u>		
Total Capital Outlay	<u>65,262,272</u>	<u>65,262,272</u>	<u>65,262,272</u>
 <u>Debt Principal Payments</u>			
Bond Principal	6,270,000		
Capital Lease Payments	<u>169,844</u>		
Total Principal Payments	<u>6,439,844</u>	<u>6,439,844</u>	<u>6,439,844</u>
Total Adjustment to Net Assets		<u>71,702,116</u>	<u>71,702,116</u>

Another element of the reconciliation on Exhibit C-4 is described as various other reclassifications and eliminations necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. This adjustment is the result of several items. The details for this element are as follows:

	<u>Amount</u>	<u>Adjustments to Change in Net Assets</u>	<u>Adjustments to Net Assets</u>
<u>Adjustments to Revenue and Deferred Revenue</u>			
Taxes Collected from Prior Year Levies	3,188,204	(3,188,204)	
Uncollected taxes (assumed collectible) from Current Year Levy	2,394,123	2,394,123	2,394,123
Uncollected Taxes (assumed collectible) from Prior Year Levy	5,624,895		5,624,895
Other	<u>561,279</u>	<u>(249,604)</u>	<u>(471,339)</u>
Total		<u>(1,043,685)</u>	<u>(7,547,679)</u>

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY DATA

The Board of Trustees adopts an "appropriated budget" for the General Fund, Debt Service Fund and the Food Service Fund which is included in the General Fund. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit C-5 and the other two reports are in Exhibit J4 and J5.

The following procedures are followed in establishing the budgetary data reflected in the general-purpose financial statements:

1. Prior to August 20 the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must be given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year. However, none of these were significant.

IV. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. DEPOSITS AND INVESTMENTS

District Policies and Legal and Contractual Provisions Governing Investments

Compliance with the Public Funds Investment Act

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires a governmental entity to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

Statutes authorize the entity to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the entity to have independent auditors perform test procedures related to investment practices as provided by the Act. LA JOYA ISD is in substantial compliance with the requirements of the Act and with local policies.

As of August 31, 2008, LA JOYA INDEPENDENT SCHOOL DISTRICT had the following cash equivalents and investments.

<u>Investment Type</u>	<u>Market Value</u>	<u>Investment Maturities (in years)</u>			
		<u>Less than 1</u>	<u>1-5</u>	<u>6-10</u>	<u>More Than 10</u>
Lone Star Money Market Accounts					
Governmental Funds	82,402,425	X			
Internal Revenue Funds	30,696,611	X			
Agency Funds	1,670,823	X			
TexPool Investment Pool					
Governmental Funds	65,306	X			
J.P. Morgan Investment Guar. Invest. Contract – ov't unds	83,192,711		X		
Total District Cash Equivalents and Investments	\$198,027,876				

The guaranteed investment contract, referred to above, is a Master Repurchase Agreement with J.P. Morgan Chase Bank, N.A., was approved by the La Joya ISD Board of Trustees on February 28, 2007. As prescribed by Chapter 2256 of the Government Code and school district policy, the fully collateralized Master Repurchase Agreement is secured by obligations of the United States of America or its Agencies and Instrumentalities and has a termination date of a.) the date on which a Transaction Reduction shall reduce the Purchase Price to zero or b.) February 28, 2010, whichever is earlier. The Public Funds Investment Act requires that the securities being pledged to the district, be held in the district's name and be deposited at the time the investment is made. The securities pledged are being held by Wells Fargo Bank, N.A. as approved by the La Joya ISD Board on February 28, 2007 to serve as the custodian of the securities.

Additional policies and contractual provisions governing deposits and investments for LA JOYA ISD are specified below:

Credit Risk To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations the District limits investments to Certificates of Deposits, Public Funds Investment Pools and Guaranteed Investment Contracts, collateralized by U.S. Government Securities. As of August 31, 2008, the district's investments were secured by Irrevocable Standby Letter of Credit issued by the Federal Home Loan Bank of Dallas.

Custodial Credit Risk for Investments State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. Since the district complies with this law, it has no custodial credit risk for deposits.

Concentration of Credit Risk To limit the risk of loss attributed to the magnitude of a government's investment in a single issuer, the investment portfolio shall be diversified in terms of investment instruments maturity scheduling, and financial institutions. To further limit the risk all of the District investments are collateralized by Irrevocable Standby Letter of Credit issued by the Federal Home Loan Bank of Dallas.

Interest Rate Risk To limit the risk that changes in interest rates will adversely affect the fair value of investments, the District requires that the investments shall be monitored by using the weighted average maturity and specific identification.

B. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.

C. DELINQUENT TAXES RECEIVABLE

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

I. DEFINED BENEFIT PENSION PLAN

Plan Description. LA JOYA ISD contributes to the Teacher Retirement System of Texas (TRS), a cost-sharing multiple employer defined benefit pension plan. TRS administers retirement and disability annuities, and death and survivor benefits to employees and beneficiaries of employees of the public school systems of Texas. It operates primarily under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C. TRS also administers proportional retirement benefits and service credit transfer under Texas Government Code, Title 8, Chapters 803 and 805, respectively. The Texas state legislature has the authority to establish and amend benefit provisions of the pension plan and may, under certain circumstances, grant special authority of the TRS Board of Trustees.

TRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan. That report may be obtained by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701, by calling the TRS Communications Department at 1-800-223-8778, or by downloading the report from the TRS Internet website, www.trs.state.tx.us, under the TRS Publications heading.

Funding Policy. Contribution requirements are not actuarially determined but are established and amended by the Texas state legislature. The state funding policy is as follows: (1) The state constitution requires the legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and state contribution rate of not less than 6.0% and not more than 10% of the aggregate annual compensation of all members of the system during that fiscal year. (2) A state statute prohibits benefit improvements or contribution reductions if, as a result of a particular action, the time required to amortize TRS's unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. State law provides for a member contribution rate of 6.4% for fiscal years 2006, 2007 and 2008, a state contribution rate of 6.58% for fiscal year 2008 and 6.0% for 2007 and 2006. In certain instances the reporting district is required to make all or a portion of the state's 6.58% contribution for 2008 and 6.0% for fiscal year 2007 and 2006. State contributions to TRS made on behalf of the District's employees for the year ended August 31, 2006, 2007, and 2008 were \$5,320,588, \$6,152,207, and \$6,902,350 respectively. The District paid additional state contributions for the years ended August 31, 2006, 2007, and 2008 in the amount of \$850,751, \$974,528, and \$1,193,028 respectively on the portion of the employees' salaries that exceeded the state minimum.

J. HEALTH CARE COVERAGE

[GASB 2300.106d] The District sponsors a modified self-insurance plan to provide health care benefits to staff members and their dependents. Transactions related to the plan are accounted for in the Health Insurance Fund (the "Fund"), an internal service fund of the District. Partial staff member contributions are required for personal coverage and total staff member contributions are required for coverage of dependents. The District obtained excess loss insurance which limited annual claims paid from the Fund for the year ended August 31, 2008, to \$100,000 for any individual participant and an aggregate limit equal to \$500,000.

Estimates of claims payable and of claims incurred, but not reported at August 31, 2008, are reflected as accounts and claims payable of the Fund. The plan is funded to discharge liabilities of the Fund as they become due.

Changes in the balances of claims liabilities during the past year are as follows:

	Year Ended <u>September 1 2007</u>	Year Ended <u>August 31, 2008</u>
Unpaid claims, beginning of the year	\$242,272	\$1,559,200

S. RETIREE HEALTH PLAN

Plan Description. The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Car), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas. TRS-Care Retired Plan provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Dare. That report may be obtained by visiting the TRS Web site at www.trs.state.tx.us, by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701, or calling 1-800-223-8778.

Funding Policy. Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The State of Texas and active public school employee contribution rates were 1.0% and 0.65% of public school payroll, respectively, with school districts contributing a percentage of payroll set at 0.55% for fiscal years 2008, 2007 and 2006. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. For the years ended August 31, 2008, 2007, and 2006, the State’s contributions to TRS-Car were \$910,419, \$ 811,476, and \$ 701,785, respectively, the active member contributions were \$ 915,654, \$ 824,231, and \$ 713,887, respectively, and the school district’s contributions were 774,760, \$ 697,488, and \$ 603,999, respectively, which equaled the required contributions each year.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENTAL AUDITING STANDARDS**

Independent Auditor's Report

Board of Trustees
LA JOYA INDEPENDENT SCHOOL DISTRICT
201 E. EXPRESSWAY 83
LA JOYA, Texas 78560

Members of the Board:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of LA JOYA INDEPENDENT SCHOOL DISTRICT (the District) as of and for the year ended August 31, 2008. These collectively comprise the District's basic financial statements. We have issued our report on them dated December 29, 2008.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered LA JOYA INDEPENDENT SCHOOL DISTRICT's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements but not for the purpose of expressing an opinion on the effectiveness of LA JOYA INDEPENDENT SCHOOL DISTRICT's internal control over financial reporting. Accordingly we do not express an opinion on the effectiveness of LA JOYA INDEPENDENT SCHOOL DISTRICT's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency or combination of control deficiencies that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principals such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency or combination of significant deficiencies that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we considered to be material weaknesses as defined above.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we have reported to the administration of LA JOYA INDEPENDENT SCHOOL DISTRICT in a letter dated December 29, 2008.

This report is intended for the information of the district's trustees, the audit committee, the administration, Texas Education Agency, federal awarding agencies and pass-through entities, and is not intended to be used and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH
MAJOR PROGRAM AND ON
INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB
CIRCULAR A-133**

Independent Auditor's Report

Board of Trustees
LA JOYA INDEPENDENT SCHOOL DISTRICT
110 E. EXPRESSWAY 83
LA JOYA, Texas 78560

Members of the Board:

Compliance

We have audited the compliance of LA JOYA INDEPENDENT SCHOOL DISTRICT with the types of compliance requirements described in the U.S. *Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended August 31, 2008. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of LA JOYA INDEPENDENT SCHOOL DISTRICT's administrators. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about LA JOYA INDEPENDENT SCHOOL DISTRICT's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of LA JOYA INDEPENDENT SCHOOL DISTRICT's compliance with those requirements.

In our opinion, LA JOYA INDEPENDENT SCHOOL DISTRICT complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended August 31, 2008.

Internal Control Over Compliance

The administration of LA JOYA INDEPENDENT SCHOOL DISTRICT is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion of the effectiveness of internal control over compliance. Accordingly we do not express an opinion on the effectiveness of the District's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency or combination of control deficiencies that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency or a combination of significant deficiencies that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses as defined above.

Schedule of Expenditures of Federal Awards

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of LA JOYA INDEPENDENT SCHOOL DISTRICT as of and for the year ended August 31, 2008 and have issued our report thereon dated December 29, 2008. Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

LA JOYA INDEPENDENT SCHOOL DISTRICT's response to the findings in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit LA JOYA INDEPENDENT SCHOOL DISTRICT's response and accordingly express no opinion on

it.

This report is intended for the information and use of the District's trustees, the audit committee, the administration, Texas Education Agency, federal awarding agencies and pass-through entities and is not intended to be used and should not be used by anyone other than these specified parties.

LA JOYA INDEPENDENT SCHOOL DISTRICT
NOTES ON ACCOUNTING POLICIES FOR FEDERAL AWARDS
YEAR ENDED AUGUST 31, 2008

- For all Federal programs, the District uses the fund types specified in Texas Education Agency's *Financial Accountability System Resource Guide* . Special revenue funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund.
- The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types and Expendable Trust Funds are accounted for using a current financial resources measurement focus. All Federal grant funds were accounted for in a Special Revenue Fund which is a Governmental Fund type.

With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The modified accrual basis of accounting is used for the Governmental Fund types. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on General Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as deferred revenues until earned.

- The period of availability for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 30 days beyond the federal project period ending date, in accordance with provisions in Section H, Period of Availability of Federal Funds, Part 3, OMB Circular A-133 Compliance Statement - Provisional 6/97.

To the Board of Trustees and
The Superintendent of
The La Joya Independent School District

In planning and performing our audit of the financial statements of the La Joya Independent School District for the year ended August 31, 2008, we considered the Organization's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control.

However, during our audit, we became aware of several matters that are opportunities for strengthening internal controls and operating efficiency. The previously reported on the Organization's internal control in our report dated December 29, 2008.) This letter does not affect our report dated December 29, 2008, on the financial statements of the La Joya Independent School District.

We will review the status of these comments during our next audit engagement. We have already discussed many of these comments and suggestions with various Organization personnel, and we will be pleased to discuss these comments in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations. Our comments are summarized as follows:

Account Reconciliations/Adjusting Journal Entries

Several significant journal entries related to the District's Self-Insurance Fund were provided and posted very late in the audit process. The District should ensure all accounts are reconciled on a timely basis, adjusting entries posted timely and the reconciliation be provided timely to the auditor during the audit process.

We wish to thank the Finance Department Personnel for their support and assistance during our audit. This report is intended solely for the information and use of the Superintendent, Board of Trustees, and District Administration and is not intended to be and should not be used by anyone other than these specified parties.
